

In all of my years fishing, I've recognized that most of bass fishings intelligentsia tends to focus on the bass and its behaviors to teach the angler how to better catch them. While this is important, too little time is devoted to helping the angler to understand the angler, and his/her responsibilities toward success. Anglers must have a better understanding of the limitations and governing factors of the sport, and of the common sense truths that promote the development of an indestructible confidence needed to execute the demands of fishing. Do you find that confidence in your bass angling skills is erratically elusive? Whether you're a seriously devoted tournament angler or an aspiring novice, every bass angler experiences this universal problem. And there are very specific and justifiable reasons for it. Fishing with Confidence addresses these reasons, and lights the way to more prosperous and confident fishing. Fishing with Confidence goes beyond the over exemplified and often redundant tips and techniques, and in groundbreaking fashion tells the story of bass fishing straight. Author John Mark Warren uses reasoned and sound fishing principles, his 35 years of insight, the wisdom and truth from professional anglers, and an exposure of a market driven media to create a template that ensures lasting self confidence in every aspiring and passionate bass angler. John has faced the challenges that every serious angler faces. His uncompromising standard of truth and accuracy shines a new light on just what makes good anglers more proficient and confident anglers. So, when you are done looking for manufactured remedies at your local bait shop, try honing your craft with Fishing with Confidence.
