

Three little cats, one at a time and under very different circumstances, find their way to Mother and Dads house. This tender tale is all about making friends, fitting in, and growing strong under the care of those who love you. In other words -- being a family! This true story of Groucho, Squid and Willem is all about three very individual cats who, on the surface, seem to have nothing in common. That they become brothers despite these obstacles is an inspiration for any family -- but especially one enriched by adoption or the blending of two into one. There are lots of pictures to bring each episode alive, and the storys ending will have you applauding the cats and the humans they live with for a job well done.
