

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners “physicians and other healthcare professionals” with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Otolaryngology is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, the diagnosis and management of: Head and neck cancer, Hearing loss, Sleep apnea, Asthma and allergy, Dysphagia, Otitis media, Thyroid diseases, Sinus diseases, Pediatric diseases, Vestibular disease, Headaches, Skin disease. The goal of this program is to improve the management of certain common challenges encountered in otology, ie, draining ear, challenging tympanoplasty, and failed pediatric hearing screening. After hearing and assimilating this program, the clinician will be better able to:

- 1: Differentially diagnose and effectively manage cases of draining ear.
- 2: Discuss indications for tympanoplasty and advantages and disadvantages of medial and lateral tympanoplasty procedures.
- 3: Discuss available graft materials and indications for cartilage tympanoplasty.
- 4: Learn the goals and common areas of pitfalls in universal newborn hearing screening.
- 5: Work up children with hearing loss, keeping in mind the common pitfalls during evaluation.
