

This lengthy series of books includes formulaic augmentations to the concepts addressed in Volumes 1 thru 93 of the series Christmas Tree Space Sails, Volumes 1 thru 23 of Superchromatic Beam Augmented Christmas Tree Space Sails, Volumes 1 thru 22 of Space-Time Real Energy Christmas Tree Space Sails, Parts 1 thru 10, Space-Time Seeping, Jitter Drive, And Classical Temperature Augmented Christmas Tree Space Sails. Volumes 1 thru 65 of Light Sails And The Eternal Star Party. Mathematical Notes On Novel Light Sail Concepts., Volumes 1 thru 69 of The Christmas Tree Light-Sail Smorgasbord. Notes On Novel Light-Sail Propulsion Methods., and Volumes 1 thru 69 of The Virtualized Tree Light-Sail Smorgasbord. Notes On Novel Light-Sail Propulsion Methods. I have decided to present the concepts disclosed regarding the Christmas Tree Sails methods in bits and pieces and in several series of volumes due to the controversial nature of the exotic hybrid propulsion methods formulated in this new series and the precursor related series of books. I feel that even though the purchase price of the books will be higher for those wishing to reference the entire sequence of ideas presented herein, many readers will prefer the gradual introduction of the concepts disclosed amidst the abstract nature of the formulation presented herein. An interesting concept includes natural or artificial astronomical lightning propulsion modes for the Christmas Tree Light Sails. Such modes would include extremely long range discharges limited to the Planck Power. The anticipated lightning bolts range from interstellar scales to super-cosmic light-cone scales and includes Standard Model and Mirror Matter Model electrical discharges as well as Standard Model and Mirror Matter Model weak neutral current discharges.
