

From the author of the groundbreaking New York Times bestseller *The Female Brain*, here is the eagerly awaited follow-up book that demystifies the puzzling male brain. Dr. Louann Brizendine, the founder of the first clinic in the country to study gender differences in brain, behavior, and hormones, turns her attention to the male brain, showing how, through every phase of life, the male reality is fundamentally different from the female one. Exploring the latest breakthroughs in male psychology and neurology with her trademark accessibility and candor, she reveals that the male brain: is a lean, mean, problem-solving machine. Faced with a personal problem, a man will use his analytical brain structures, not his emotional ones, to find a solution. thrives under competition, instinctively plays rough and is obsessed with rank and hierarchy. has an area for sexual pursuit that is 2.5 times larger than the female brain, consuming him with sexual fantasies about female body parts. experiences such a massive increase in testosterone at puberty that he perceives others' faces to be more aggressive. *The Male Brain* finally overturns the stereotypes. Impeccably researched and at the cutting edge of scientific knowledge, this is a book that every man, and especially every woman bedeviled by a man, will need to own. Praise for *The Female Brain*: Louann Brizendine has done a great favor for every man who wants to understand the puzzling women in his life. A breezy and enlightening guide to women and a must-read for men. —Daniel Goleman, author of *Emotional Intelligence*

Celebrities Are Ruining Our Country...and Other Reasons Why We're All in Trouble, Psychopathology in Adulthood (2nd Edition), Rainbows in Love,

*The Male Brain* has ratings and reviews. David said: While this book started out slow, it got better as the author went through the stages of man. We begin our conversation discussing how a megadose of testosterone in the womb wires a male brain differently from a female brain and how.

From his wandering eye to his real desire to mate for life, here are the top 10 things every woman should know about the male brain. For decades, brain scientists have noticed that on average, male brains tend to have slightly higher total brain volume than female ones, even. "The Male Brain" is positioned for a similar second round. Would Brizendine have gotten this kind of pop for a single book called "The Male and

Researchers have discovered almost major differences between male and female brains. So says the author of the new book "The Male Brain," psychiatrist Louann Brizendine, known for her bestseller "The Female Brain." "The way. You might want to try to keep your own personal pet caveman in the dark on this one, but in her inevitably best-selling new book, *The Male*. Louann Brizendine: Male and female brains mostly alike, but some She wrote *The Female Brain* and, just released, *The Male Brain*. According to Simon Baron-Cohen, PhD, author of *The Essential Difference: Male and Female Brains and the Truth About Autism*, men's neurological wiring.
