

A pioneering Egyptologist, Sir William Matthew Flinders Petrie (1853-1942) excavated over fifty sites and trained a generation of archaeologists. His meticulous recording of artefacts and his sequence dating of pottery types found in Egypt and Palestine made Near Eastern archaeology a more rigorous and scientific discipline. This fully illustrated follow-up report of 1901 on the royal tombs at Abydos, capital of Upper Egypt, covers the early dynastic period (c.3100-c.2700 BCE). Petrie gives detailed descriptions of eight tombs and the associated finds. A chapter on the inscriptions is provided by Francis Llewellyn Griffith (1862-1934). Petrie wrote prolifically throughout his long career for both specialists and non-specialists. His preliminary report, *The Royal Tombs of the First Dynasty* (1900), and the three-part *Abydos* (1902-4) are among those works also reissued in this series.
